

NutraZu® Vita-Zu® Mammal Tablet with No Vitamin A

(Visit www.nutrazu.com to find a distributor in the UK and EU.)

Formula Code – 5TLA

Description

NutraZu® Vita-Zu® Mammal Tablets with No Vitamin A are formulated to provide supplemental water- and fat- soluble vitamins to fish-eating mammals. These tablets are designed to be fed with intact (i.e., whole) fish containing livers, which are a good source of vitamin A.

Features and Benefits

- Outer coating decreases instance of oxidative vitamin losses.
- No artificial flavors or colors.

Product Form

Oval tablet weighing 1.5 g; Elongated and scored in the middle for easy splitting.

- 1.5 kg per canister (~1,000 tablets); 12 canisters per case.

Nutrient Composition (per tablet)

| | | | |
|----------------------|-----|----------------------------|------|
| Vitamin A, IU | 0.0 | Pyridoxine, mg | 15 |
| Vitamin E, IU | 365 | Pantothenic acid, mg | 15 |
| Vitamin C, mg..... | 265 | Folic acid, mg | 0.55 |
| Thiamin, mg..... | 240 | Biotin, µg..... | 275 |
| Riboflavin, mg | 15 | | |

Ingredients

Ascorbic acid (stabilized vitamin C), thiamin mononitrate, dl-alpha tocopheryl acetate (form of vitamin E), brewers dried yeast, dried corn syrup, calcium pantothenate, riboflavin, pyridoxine hydrochloride, shellac (outer coating), diacetylated monoglyceride (outer coating), maltodextrin, magnesium stearate (binder), silicone dioxide (tableting agent), corn oil, folic acid, biotin.

Feeding Directions

Feed to marine mammals by placing the tablet into the food fish. Feed 1 tablet per 5 pounds of fish.

Storage Conditions

For best results, tightly affix lid on container after removal of required dosage. Store in original container in a cool (23°C or colder), dry (approximately 50% RH) location. Use within 1 year of lot manufactured date.

Note: Ingredients cause pill to have a speckled appearance. Coating on tablets may become speckled with exposure to air – this is not indicative of any vitamin degradation.
