Vitamin E, IU	50	Vitamin B ₁₂ , µg	3.5

Ingredients

Ascorbic acid (stabilized vitamin C), calcium iodate, microcrystalline cellulose, dicalcium phosphate, thiamin mononitrate, dried brewers yeast, dried corn syrup, dl-alpha tocopheryl acetate (form of vitamin E), shellac (outer coating), diacetylated monoglyceride (outer coating), vitamin A acetate, corn oil, pyridoxine hydrochloride, calcium pantothenate, riboflavin supplement, niacin, cholecalciferol (form of vitamin D₃), vitamin B₁₂ supplement, nicotinic acid.

Feeding Directions

- Feed to sharks/rays by placing tablet into the food (shellfish or fish).
- Feed 1 tablet per ½ pound of food.
- Recommendation: feed out within 12 hours of pilling food.

Storage Conditions

For best results, after removal of required tablet dosage store in original container with lid securely affixed in a cool (75°F or colder), dry (approximately 50% RH) location. Use within 1 year of lot code date.

Note: Ingredients cause pill to have a speckled appearance. Coating on tablets may become speckled with exposure to air - this is not indicative of any vitamin degradation.
