

NutraZU[®]

Diet Reference Guide

Who We Are

NutraZu® is a world leader in quality nutrition for exotic animals. We design, test, and produce a wide variety of animal diets. We support ongoing research and conservation through grants and sponsorships with other animal experts. For years, zoo professionals, veterinarians, breeders, and exotic pet owners have trusted their animals to NutraZu®.

All NutraZu® feeds are manufactured with high quality ingredients and the latest technology in our own plants. Our main plant is a drug free, FSSC 22000-certified manufacturing facility. We maintain a quality control lab on premises and also use independent analytical labs for off-site testing. By testing incoming ingredients, we are able to give your animals nutritionally consistent and high-quality diets. We work every day to renew our outstanding reputation and your trust. From exotic birds, to reptiles, to mammals, to fish, and everything in between, NutraZu® offers nutritional products for diets as diverse as the animal kingdom. Most importantly, our technical support staff is available to answer your nutrition questions for virtually every living exotic animal. Through research and collaboration with our customers, NutraZu® provides optimal nutritional products and support for the world's exotic animals nurtured and sustained for conservation, preservation, breeding, rehabilitation, and companionship.

Tortoises & Turtles
